Holland Village Accident

Dear Parents and Guardians,

I am writing to address the tragic road incident that occurred very early this morning near Holland Village. We want to reassure you that, to the best of our knowledge, the individual involved in this incident has no connection to our school community.

We understand that a WhatsApp message circulated earlier today is being referenced in some news reports. This may unintentionally give the impression that the individual was affiliated with our school, which is not the case.

If your child has been affected or is feeling unsettled by the news, please know that our school counsellors are available and ready to support them.

Thank you for your continued care and support.

Yours sincerely,

Gavin Kinch
Principal
